

BROADFIX SEAL-A-TUBE HOW TO USE GUIDE

- The Broadfix Seal-A-Tube is available in two sizes, denoted by colour - yellow is thick bead, and blue is thin bead.
- Choose the Seal-A-Tube which fits best, and slide into the nozzle of your part-used tube of caulk or silicone, to create an airtight seal.
- When you need to use your silicone or caulk again, simply remove the Seal-A-Tube and you're ready to go.
- If any dried residue remains on the inner pin, then this can be cleared off following the steps below.
